QUALITY

2nality

For over seventy years The Zangerle & Peterson Company have designed and made furniture of quality. In presenting this catalogue of correctly styled and properly constructed occasional pieces, we have sought to provide better occasional pieces at prices everyone can afford that permits no compromise with quality.

Many of our patterns are reproductions of famous pieces now found in American and European museums, reconstructed and produced under ideal modern production conditions.

Construction

All woods used are kiln-dried in our own kilns and are the best obtainable. We use Honduras Mahogany and American Black Walnut of the highest grade only. All veneers used, such as French Rosewood, East India Rosewood, Mottled Satinwood, Mahogany Crotches and Swirls, Walnut Burls, are the very finest. In furniture making, our modern equipment facilitates economical construction, yet all details and carvings are carefully hand finished by skillful craftsmen. All drawers are in Mahogany and are dove tailed

Finish

Our final finishes of protecting and mellowing coats require many operations. Every piece is hand glazed to bring out the grains of beautiful woods used in our Old World Mahogany and Old English Walnut designs. Several coats of waterproof and alcohol-proof lacquer are applied as a further assurance of a lasting finish. Each piece is hand-rubbed after application of finishing coats to a velvet smoothness.

This is furniture that carries on today as it has for nearly three-quarters of a century the fine traditions of superb design and Old World Craftsmanship
